

DRAW ALONG

Psst... drawing you and your friends swimming is easy. Most of it is underwater!

Draw half a head and half of both ears.

Add eyes, eyebrows, and a nose... notice how much you can express with just a few squiggles! Try changing the eyebrows for different expressions.

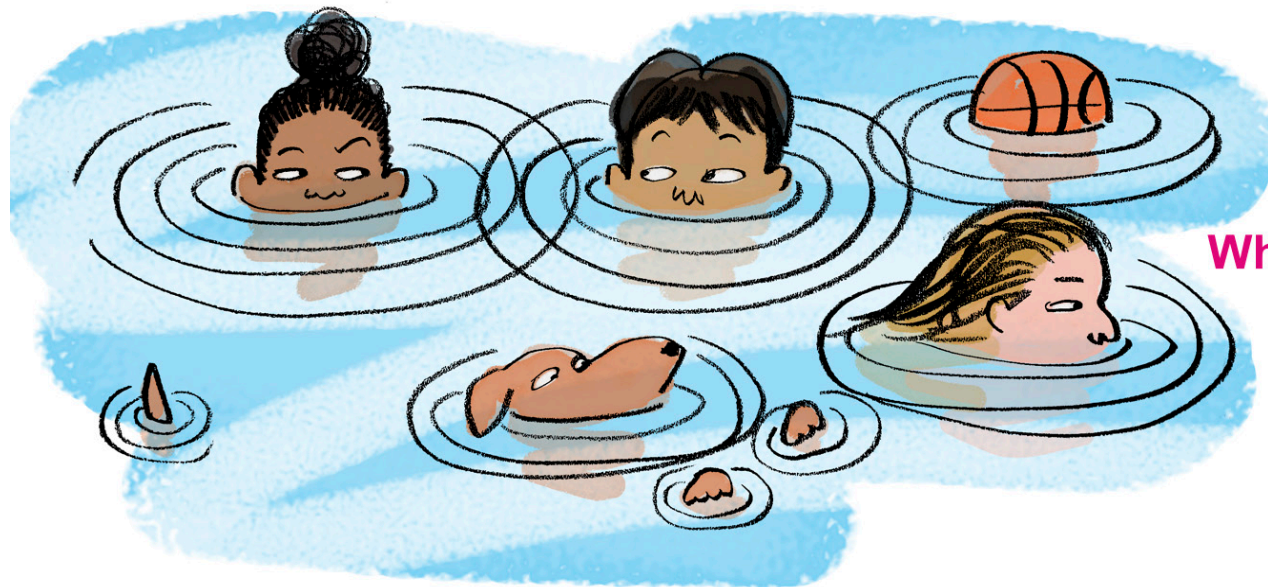

Add some hair (or maybe a hat?)

"Hmm, it still doesn't look like I'm swimming," she seems to be saying.

Draw some circles around the head. Now we're swimming!

What else can you draw floating in the water?
